

Inside and Outside of Computers and Minds

Wednesday, 10 March 2010, 11am-5:30pm,
Senate House, London

A “Bridging the Gaps” multidisciplinary event that explores the common questions in the philosophy of mind and philosophy of computer science.

Speakers:

Aaron Sloman, University of Birmingham
‘Why robots interacting intelligently with a complex 3-D environment will need qualia and how they can have them’

Murray Shanahan, Imperial College London
‘Where is Wittgenstein in the Contemporary Debate on Consciousness?’

Luciano Floridi, University of Hertfordshire and University of Oxford
‘Inside and Outside Possible Worlds: the Cooptation of Scepticism’

Pat Healey, Queen Mary, University of London
(title tba)

Graham White, Queen Mary, University of London
‘Bootstrapping Normativity’
