

Receiving Quick Time live streams from QMUL Centre for Digital Music Seminars

System Requirements:

- 1) Mac OR PC with Quick Time Player Ver. 7.1.5 Installed

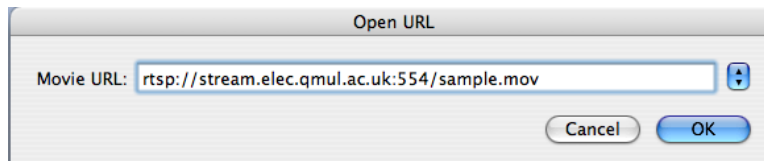

Free download from (<http://www.apple.com/quicktime>)

- 2) A broadband Internet connection with port 554 OPEN.

To test your computer:

- 1) Run the Quick Time Player Application.
- 2) Go to the menu: File>Open URL...
You should get a window like this:

- 3) Type the following inside the Movie URL: text window.
<rtsp://stream.elec.qmul.ac.uk:554/sample.mov>
or
<rtsp://138.37.35.213:554/sample.mov>
- 4) Press Ok
Now you should get a sample test video and audio stream.

If this fails please ensure you have the right version of Quick Time Player, That your port 554 is open and that your fire wall is not interfering with the stream. One you have checked all this please try the test again.

Watching QMUL C4DM Seminars Live:

- 1) Run the Quick Time Player Application.
- 2) Go to the menu: File>Open URL...
- 3) Type the following inside the text window:
<rtsp://stream.elec.qmul.ac.uk:554/mystream.sdp>
or
<rtsp://138.37.35.213:554/mystream.sdp>
- 4) Press Ok

NOTE: Live streams only work under Quick Time And WILL NOT be supported under Real Time Player. For enquires please e-mail enrique.perez@elec.qmul.ac.uk

Watching Past QMUL C4DM Seminars:

Go to: <http://www.elec.qmul.ac.uk/digitalmusic/seminars/>
And use the links provided.

An other alternative is to use the URL feature on Quick Time Player.

- 1) Run the Quick Time Player Application.
- 2) Go to the menu: File>Open URL...
- 3) Type the following inside the Movie URL: text window.
<rtsp://stream.elec.qmul.ac.uk:554/filename.mov>
or
<rtsp://138.37.35.213:554/filename.mov>
- 4) Press Ok
Now you should get the requested video and audio stream.
